TECHNICAL INFORMATION

Cotton Jersey gloves should fit comfortably, but snugly on the hand. They should not shrink excessively (ie., they should still fit comfortably after washing). Jersey gloves are a general purpose work glove. They provide greater dexterity and a sense of touch than woven gloves, and they are warmer due to their clinginess

The PVC dot improves grip and abrasion resistance

Fire point: 210 °C (410 °F)
Auto-ignition temperature: 407 °C (765 °F)
