Applications

Protects hands while providing increased grip and finger sensitivity.

This glove has a unique rough crinkle grip for superior wet and dry grip

Packaging

- Sold by DZ (See below for case pack)

Care

Launder in Warm Water, air dry

TECHNICAL INFORMATION

PALM COATED

Palm Coated gloves allow the glove to breath keeping the hand cooler than a full coating.

Nitrile is a synthetic rubber that hold up to oil. The coating is more tear and abrasion resistant than natural latex that protects the hand from rough surfaces and sharp edges while providing flexibility. The uncoated backs provided breathability to help hands stay cool.
