

IBLN4

Product Data Sheet

DERMAGARD

Disposable Nitrile

Product Description

- Powder Free Nitrile
- 4 Mil
- Ambidextrous
- Sizes Small through Extra Large
- Does NOT contain Latex
- Non Sterile
- Textured surface for solid grip

Applications

- Non sterile Medical
- Automotive manufacturing and maintenance
- resistance to petrochemicals.
- Oil and fuel refining, storage, pipeline and delivery
- Manufacturing of transmission belts, gaskets, oil seals, v-belts
- Any place where hypodermic needles are used
- Manufacturing and handling of many adhesives and solvents.

Packaging

- Sold by Boxes
- 100 Gloves per Box
- 10 Boxes per Case.

TECHNICAL INFORMATION

Nitrile

Nitrile Butadiene Rubber, also known as **Buna-N** and more commonly known as "Synthetic Rubber"

Nitrile gloves are about 3 times more puncture resistant than latex and this makes the nitrile glove an excellent candidate for ambulance operators, health clinics, paramedics and very, very popular with dentists and dental hygienists.
