Packaging

- Sold by Dozens
- 12pr/bundle. See below for case pack.

Care

Use Saddlesoap, blot on, gently brush, Wipe off all soaps suds. Allow gloves to air dry.

TECHNICAL INFORMATION

Leather Driver

Driver's gloves are full leather gloves primarily made in the gunn-cut pattern. They can be lined or unlined and usually come in several sizes: small, medium, large and extra-large.

Driver's gloves are usually made out of grain leather, but they are also made out of split leather. The grain leather gives the glove a nice appearance in addition to providing excellent wear, comfort, and protection.

Leather is well suited to make durable gloves due to its unique properties. It is a very durable material which is also soft, supple, and pliable. In addition, it has some stretch in it which allows it to move with the many movements of the hand.
