#### Packaging

- Sold by Dozens
- 6pr/bundle. See below for case pack.

#### Care

Use Saddlesoap, brush and blot, allow to air dry.

### TECHNICAL INFORMATION

#### Leather Driver

Driver's gloves are full leather gloves primarily made in the gunn-cut pattern. They can be lined or unlined and usually come in several sizes: small medium, large, and extra-large.

Driver's gloves are usually made out of grain leather, but they are also made out of split leather. The grain leather gives the glove a nice appearance in addition to providing excellent wear, comfort, and protection.

Leather is well suited to make durable gloves due to its unique properties. It is a very durable material which is also soft supple, and pliable. In addition, it has some stretch in it which allows it to move with the many movements of the hand.
